

Factory's Advantage:

Sinrui's factory got ISO9001:2015 Quality Management System and has over 15 years' experience and technique in electrical wire harness, flat cables;

We equipped with automatic wires manufacturing machines which can support produce from wire cut, striped, tinned, terminal assembling machines.

Therefore, for some wires, we can provide fast lead-time (within 7 days), and high quality as well as low price.

And we also equipped machines for large cables and large connectors, that we can produce complex and large size of electrical cable assembly, like elevator cables, power cords for city power supply, vehicle harness and truck's cables, etc.

For every customer, we have project managers to resolve and support immediately.

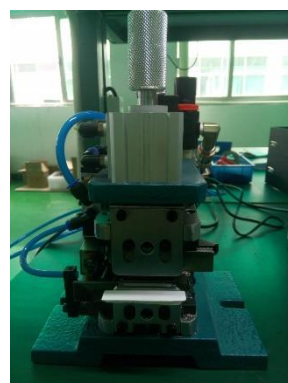

Below are parts of our production machines and production line:

Automatic high-speed terminal machines

Large terminal assembly Machines

Large wire pneumatic stripping machines

Automatic double-end terminal machines

Vertical cables molding injection machines

Digital wire cut

Tube cut

Assembly lines

Inspection corner

Quality Warranty:

All products will be 100% tested before shipment;

And our factory is equipped complete testing devices for our production inspection!

Conduction Connection tester

Tensile tester

Visual inspection

What we can produce:

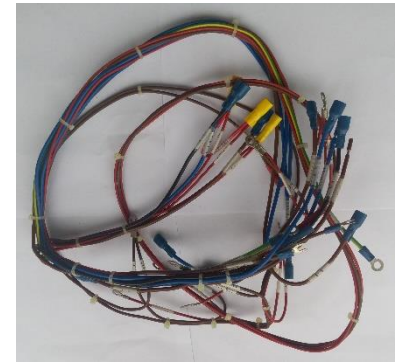

Waterproof cable assembly

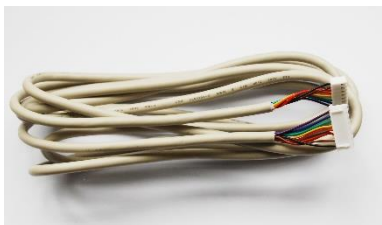

Magnetic Pogo Charging cable

Complex wire harness

Multi core cable assembly

Elevator flat cables assembly with terminal blocks

Battery cable assembly

D-Sub cables

vehicle harness

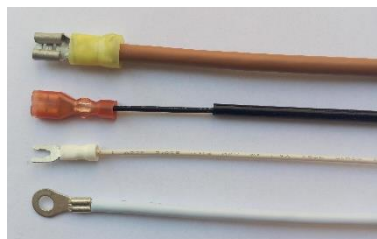

vehicle harness

Simple wire harness

terminal wire harness

USB Cables
